EDUCATION

UNIVERSITY INSTITUTE OF TECHNOLOGY, RGPV

Bachelor's of Technology in computer science and engineering | 7.54 CGPA

Sept 2023 – July 2027

Bhopal, Madhya Pradesh

- Completed core subjects like **Data Structures & Algorithms (DSA)**, **C Programming**, **Computer Organization & Architecture (COA)**, **Microprocessor & Interfacing**, **Mathematics**, and **Theory of Computation**
- Currently studying **Operating Systems**, **Database Management Systems (DBMS)**, **Computer Graphics**, **Data Communication**, and **Cyber Security**

LAKSHYA INTERNATIONAL SCHOOL

Senior Secondary (Class XII) | Scored 87.6%

April 2021 – May 2022

East Godavari, Andhra Pradesh

- Stream: **PCM (Physics, Chemistry, Mathematics)**
- Appeared for **JEE Mains**, qualified with **92 percentile** out of ~1.5 million candidates

PROJECTS

Complexity Analyzer | A React-based web application built with Vite to analyze and estimate the time and space complexity of algorithms.

- Developed using React components (App.jsx, main.jsx) and styled with CSS.
- Integrated C++ code parsing via tree-sitter library to statically analyze code syntax and compute complexity metrics.
- Modular and scalable project structure with Node.js dependencies managed through npm.
- Provides real-time complexity insights for developers aiming to optimize algorithm performance.
- Project link: <https://complexity-analyzer-five.vercel.app/>

DSA Visualization | An interactive web application to visualize common sorting algorithms including Merge Sort, Quick Sort, Bubble Sort, Selection Sort, and Insertion Sort.

- Developed dynamic animations using JavaScript and HTML5 Canvas for clear step-by-step algorithm visualizations.
- Implemented playback controls (play, pause, reset, speed adjustment) for an enhanced learning experience.
- Created features to save and load visualizations via RESTful API backed by Node.js and MongoDB, providing persistent data storage.
- Designed a responsive and intuitive user interface with CSS ensuring accessibility on various devices, improving algorithm comprehension.
- Project link: <https://webdev-projecct.vercel.app/>

TECHNICAL SKILLS

Programming Languages: C++, Python, JavaScript, SQL (PostgreSQL)

Frontend Development: HTML5, CSS3, React, Tailwind CSS

Backend & Frameworks: Node.js, Express.js, REST APIs, Vite

Databases & Storage: PostgreSQL, MongoDB

CS Fundamentals: DSA, Object-Oriented Programming, Operating Systems, Cyber-Security.

Tools & Platforms: Git, GitHub, Linux (ubuntu), VS Code, Figma

Soft Skills: Problem Solving, Collaboration, Time Management, Leadership, Adaptability, Curiosity, Research Mindset

CERTIFICATIONS

- Google Cloud Arcade Facilitator Program - 2025** | Google Cloud | **5th June 2025**

Achieved the Ultimate Milestone as an enthusiastic learner with consistent hands-on labs and deep cloud curiosity. Actively participated as a Google Cloud Arcade Facilitator, building expertise in Google Cloud technologies. and Jupyter Notebook. Applied concepts to real-world, data-driven projects.

EXTRACURRICULAR

- Qualified **JEE Mains** 2023 with 92+ percentile, securing a national All India Rank under 90,000 among 1.5 million.
- Competitive Programming: 3 star Rated on CodeChef actively solving algorithmic problems on platforms like Codeforces, LeetCode.
